

## *Fluffy poppets, Honey & Alfie!*

Honey (12years) and Alfie (14 years) are a pair of strongly bonded Bichon Frise's. We can not separate them so are looking for the perfect retirement home for them! They were given to the Oldies Club as sadly their owner's working hours were too long.

They are being fostered in Okehampton, Devon.

**Ideal Home :** Alfie is a gentle, happy dog. He loves fuss and attention, but as he has limited hearing and advancing cataracts, he can easily be startled if you touch him before he senses you close to him. It's best to approach him from the front so he can see your hand before him. Honey took a little longer than Alfie to settle into their foster home, she likes to take her time to get to know you but once she does.. she's a very loving girl that wants to be next to you all the time. They do still enjoy their walks and have 2 or 3 walks a week. They don't have good recall so must stay on leads! They mainly like to potter in the garden.

They are both quite reliant on their human companions so we are looking for a home with someone around most of the day.

**Children:** We are looking for either an adult-only home, or a family with older children who are very dog-savvy and understand that dogs like Alfie need their undisturbed rest.

**Other Dogs:** Alfie is happy meeting other dogs, but again it is easier on him if dogs aren't coming up to him from behind. Honey is also good meeting other dogs but she can tell Alfie off at times if he is bothering her too much!

**Cats:** We need a cat-free home as we don't know how they are with them.

Find this pair on our website <https://shorturl.at/kFIW0>

You're welcome to take a photo of this leaflet so that you can find out more and get in touch when you get home

**There are many older dogs waiting for loving homes.  
If you can offer a home please contact the Oldies Club.**
